VS

FREEDOM FOUNDATION

OPPOSES higher pay for educators

OPPOSES smaller class sizes

OPPOSES local collective bargaining and worker rights

OPPOSES fair evaluations

OPPOSES educators having a voice in education policy decisions

OPPOSES increased funding for public schools

REPRESENTS extremist out-of-state political groups and corporate foundations

The Ohio Education Association (OEA), Ohio's New Educators (ONE), and our local unions represent and advocate for Ohio's public school employees and students.

Extremist political groups like the Freedom Foundation represent corporate interests and are attacking our right to be represented by our union.

The Freedom Foundation doesn't support us, and is actually fighting against what our students need and deserve.
